

2001 Mustang

T W O T H O U S A N D A N D O N E

2001 Mustang
Experience the freedom of Mustang.

Live out your Mustang dreams.

Introducing Mustang for 2001. Mustang has the magical ability to turn an every day drive into an adventure. It has given thrills to drivers since the original "pony car's" introduction in 1964.

It's the car you dreamed about as a kid, and still adore as an adult. Whether you are young or young at heart, you owe yourself the Mustang experience.

Mustang Coupe in Black Clearcoat.

Once inside Mustang you'll
never want to get out.

You've always stopped and taken a second look at Mustang as it drove by, but once inside it's something beyond words. It's a car that's truly exhilarating, even when standing still.

Mustang's reclining cloth bucket seats wrap you in comfort. The instrument panel is easy to use and includes a tachometer. Air conditioning, power windows and power door locks are all standard, providing you the ultimate in comfort and convenience.

Mustang GT trimmed in
Medium Parchment leather.

Metric instrumentation is
standard in Canada.

interior features

1. Getting the most of what's under the hood starts with a cockpit designed to keep you in touch with all your controls. And with your comfort level.

interior interior interior 2001 Mustang

2. A superbly designed instrument panel makes it easy to reach the temperature and music controls.
3. Nothing is music to your ears like the sound of a revved up engine... but the in-dash 6-disc MACH® 460 CD changer gives it plenty of competition. (Standard on GT and V6 Convertible, optional V6 Coupe.)

Mustang GT's performance delivers worry-free driving.

Just mention the name Mustang and outstanding performance instantly comes to mind. You get a sudden urge to find an open road, so you can really experience the power of Mustang GT's 4.6L V8. You seem to fly through the gears of its 5-speed manual transmission. Add to this Mustang's uniquely calibrated suspension and aluminum twin-piston front brake calipers and you have an unbelievable performance set-up.

To really enjoy driving you also need peace-of-mind. Mustang delivers this too. Mustang GT offers standard dual air bags, all-speed traction control and 4-wheel anti-lock brakes so all your worries can be left behind.

5

1. John Force and his Mustang Funny Car hold the NHRA quarter-mile record time (4.788 sec.) and top speed (324.05 mph). What a race horse.

2. The deep-skirt modular 4.6 litre single-overhead-cam V8 delivers 260 horsepower. And at 302 ft.-lbs. of torque at 4,000 rpm, it's obviously happiest at a higher rpm. So take it out and let it run. (Standard on GT)

3. Something about the second stainless steel exhaust tip out the back of the GT that says "power—and lots of it." Maybe it's the 260-horsepower, 4.6 litre V8 it's attached to.

4. Mustang GT has higher-rate handling components which help the suspension distribute power equally.

5. Power rack-and-pinion steering with a 15:1 on-centre constant ratio. Translation: It's gonna go where you want it to go.

THE FORD CONSUMER COMMITMENT

the ford consumer commitment the ford co

24-Hour Roadside Assistance

24-Hour Roadside Assistance

You can count on Ford Quality now and down the road. That's because every new Ford of Canada car and light truck includes the assurance of an emergency no-cost Roadside Assistance Program during the 3-year/60,000 km warranty period. Help is just a toll-free phone call away – 24 hours a day anywhere in Canada or the continental United States – should you ever need trip planning, towing assistance, fuel delivery, a tire change, a jump start, emergency travel reimbursement or even help when you're locked out of your vehicle.

36-Month Warranty

36-Month Warranty

The 36-month/60,000 km limited warranty covers the complete vehicle (except tires, and other items listed in the Warranty Guide) against defects in factory-supplied materials or workmanship. Ford of Canada's corrosion warranty covers against corrosion perforation on body sheet metal panels for 5 years/unlimited distance. Each vehicle is protected with an enhanced corrosion protection system.
